

INDEX TO VOL. 51

- Becker, P.-G., and J.W. Sander, Irrationality and codes 117
 Campbell, C.M., Robertson, E.F., Ruškuc, N., and R.M. Thomas, Reidemeister-Schreier type rewriting for semigroups 47
 do Rocio, O.G., and L.A.B. San Martin, Discrete semigroups in nilpotent Lie groups 125
 Drápal, A., On the semigroup structure of cyclic left distributive algebras 23
 Forkoetes, A.A., Lattices of lower finite breadth 391
 Higgins, P.M., Embedding semigroups in semibands of depth two 395
 Hindman, N., and D. Strauss, Nearly prime subsemigroups of $\beta\mathbb{N}$ 299
 Hotzel, E., Maximality properties of some subsemigroups of Baer-Levi semigroups 153
 Howie, J.M., Gordon Bamford Preston 270
 Huth, M., Zero dimensional and connected domains 63
 Jing, F., Abundant semigroups with a medical idempotent 247
 Jones, P.R., E-free objects and E-locality for completely regular semigroups 357
 Junghenn, H.D., SAP compactifications of N-fold and infinite semidirect products 31
 Konieczny, J., - see Lipscomb, S.
 Lakser, H., Padmanabhan, R., and B. Wolk, Varieties of operator semigroups
 representing partitions 135
 Lipscomb, S., and J. Konieczny, Classification of S_n -normal semigroups 73
 Loganathan, M., and A. Tamilarasi, Construction and representation of regular
 semigroups 191
 Maleki, A., Semigroups of quasi-compact operators 273
 Padmanabhan, R., - see Lakser, H.
 Piskarev, S., and S.-Y. Shaw, Perturbation and comparison of cosine operator
 functions 225
 Plappert, P., A sandwich theorem for monotone additive functions 347
 Renardy, M., On the stability of differentiability of semigroups 343
 Repnitskii, V.B., On the representation of lattices by subsemigroup lattices of
 bands 379
 Robertson, E.F., - see Campbell, C.M.
 Rosales, J.C., Function minimum associated to a congruence on integral n-tuple
 space 87
 Ruess, W.M., Purely imaginary eigenvalues of operator semigroups 335
 Ruškuc, N., Matrix semigroups—generators and relations 319
 Ruškuc, N., - see Campbell, C.M.
 San Martin, L.A.B., - see do Rocio, O.G.
 Sander, J.W., - see Becker, P.-G.
 Schmid, J., - see Thurnherr, W.
 Schwarz, S., Powers of subsets in a finite semigroup 1
 Shaw, S.-Y., - see Piskarev, S.

Silva, P.V., The word problem for nilpotent inverse monoids	285
Song, G., Identities of semigroup rings over semilattices of completely (0)-simple semigroups	295
Strauss, D., - see Hindman, N.	
Tamilarasi, A., - see Loganathan, M.	
Thomas, R.M., - see Campbell, C.M.	
Thurnherr, W., and J. Schmid, Maximal (semi-)lattices of fractions and injective hulls	105
Wolk, B., - see Lakser, H.	
Zapatin, R.R., A representation theorem for CAC lattices	263
Zheng, H., Strong P -congruences on P -regular semigroups	217
Zhitomirskiy, G.I., One simple result concerning imprimitivity relations of monoids of transformations and its applications	97
